

Harvest Corpus Christi

Food insecurity means that the members of a household may not have consistent access to nutritious food other than through emergency sources such as food banks or food pantries. Food security is a foundation for a healthy, well-nourished population. Food banks/pantries are scrambling to feed more people with fewer resources.

If you have a fruit tree or a garden in your backyard that generates so much produce that you want to share with those in need, give us a call. We will come pick it, give you the portion you want to keep & donate the rest to local shelters & food bank.

Contact us at harvestcorpuschristi@yahoo.com or call 334-3908 to become involved.
